SUMMARY

Python developer building data, ML, and AI workflow applications across PyPI packages, ETL pipelines, full-stack apps, and desktop automation. Published tools with 11,200+ PyPI downloads; built LLM-enabled job workflows, financial data ETL, and XGBoost models on datasets up to 58.4M records.

SKILLS

Python, SQL, JavaScript, TypeScript, HTML, CSS, Next.js, React, Node.js, Electron, REST APIs, LangChain, OpenAI API, Groq API, LLM Integration, Prompt Engineering, Pandas, NumPy, SciPy, Statsmodels, scikit-learn, XGBoost, LightGBM, CatBoost, SHAP, TensorFlow, Keras, Data Analysis, EDA, Data Profiling, Data Cleaning, Data Visualization, ETL, PDF Processing, Web Scraping, MySQL, SQLite, PostgreSQL, Prisma, PyPI, CLI Development, Desktop Automation, Browser Extensions, Git, GitHub, Docker, Azure OpenAI

EXPERIENCE

Data Science Consultant Intern, Rubixe (Think Ahead Innovations Pvt. Ltd.)
Bengaluru, India — Sep 2024 - Mar 2025

- Built an XGBoost lead-quality classifier from MySQL-sourced FicZon sales data on 7,420 leads; achieved 84.74% recall and 0.8106 ROC-AUC for high-potential lead identification.
- Delivered POC and client assignments using Python, SQL, data cleaning, EDA, visualization, and machine learning; communicated findings in supervised client-facing team settings.

Coordinator, Pantaloons (Aditya Birla Fashion and Retail Ltd.)
Bengaluru, India — Apr 2022 - Mar 2023

- Maintained 99% transaction accuracy across 100+ daily records; used Excel reporting and checks, reducing errors by 15%.

PROJECTS

JobSync, Next.js AI Workflow App — Dec 2025 - Present
Live: jobsync.dbbflow.fun (GCP); GitFront: jobsync-demo

- Built a full-stack AI job-search CRM centralizing applications, documents, interviews, tasks, notes, deadlines, job aggregation, and application review workflows.
- Developed a Manifest V3 job-extraction extension with 47 URL match patterns and AI workflows for resume review, parsing, job matching, cover-letter parsing, and reporting.

Python/Electron Automation Tools — Aug 2025 - Present
GitHub: spectratact, Multi-AI-Chat-Manager-demo

- Built SpectraTact, a Python-Electron Windows desktop app that launches configured application profiles, detects windows, and arranges workspaces using priority-based grid, side-by-side, and multi-monitor layouts.
- Built a multi-AI workflow app for 12 configured AI platforms with YAML profiles, selective prompt targeting, window controls, and a browser-extension bridge for prompt/output automation.

StatementForge, PDF Data Extraction & ETL Pipeline — Jun 2025 - Present
GitFront: StatementForge-demo

- Automated extraction and normalization for 16 bank, credit-card, UPI, and credit-line sources into one schema for cross-institution analysis.
- Handled encrypted PDFs, inconsistent formats, and multi-source consolidation for repeatable statement processing workflows.

AutoCSV Data Profiling Tools, Python CLI / PyPI Libraries — Dec 2024 - Present
PyPI: insightfulpy, autocsv-profiler; GitHub: insightfulpy, autocsv-profiler, autocsv-profiler-suite

- Published reusable CSV profiling and EDA tools with 11,200+ combined PyPI downloads across AutoCSV Profiler and InsightfulPy.
- Built multi-engine profiling workflows with 4 isolated profiling engines, 17 statistical metrics, visual reports, chunked processing, and reusable pandas EDA utilities.

Classification Models, Machine Learning — Jun 2024 - Apr 2025
GitHub: HomeLoanDef, INX-Employee-Performance-Analysis

- Processed 58.4M loan records across 7 datasets and 218 features, reducing memory usage by 68.5% and false positives by 20% for default-risk modeling.
- Achieved 83.0% accuracy and 0.785 ROC-AUC for loan default prediction; achieved 92.5% accuracy, 0.9242 F1, and 0.9756 ROC-AUC for INX performance analytics.

Regression Modeling Projects, Machine Learning — Jun 2024 - Mar 2025
GitHub: AutoPricePred, BikeRental

- Achieved 0.917 test R2 and 1,987 RMSE for automobile price prediction, selecting an interpretable Lasso model with 29 non-zero coefficients.
- Achieved 0.832 test R2 and 820 RMSE for bike rental demand forecasting, selecting a Ridge model with a 0.5% overfitting gap for practical forecasting.

EDUCATION

Master of Arts in Economics, Bangalore University
Bengaluru — Jan 2022 - Nov 2023
CGPA: 7.15/10 (Grade A)

CERTIFICATIONS

Certified Data Scientist Certification Training, DataMites — Completed Mar 2025
Certified Data Scientist, IABAC — Issued Apr 2025; Valid Until Apr 2028
Certified Data Scientist, NASSCOM FutureSkills Prime — Issued Apr 2025
